

Sale Name: Cherry Valley Fuelwood

1# - PRODUCT DESIGNATION (07/1998)

The Forest Service designated timber or forest products for cutting or harvesting prior to award of this contract. The designated timber or forest products is confined to the sale area and has been designated in the following manner: GREEN paint on the ends of the downed logs or a GREEN painted band around standing tree's DBH with a GREEN painted stumpmark. Trees painted any color other than GREEN are excluded from this sale. All GREEN painted logs/trees are located within 150 feet of the 2N95 loop road. All boles removed must be less than 9 feet in length. Max stump height is 1/3 stump diameter not to exceed 12 inches.

While campground is open (late April to mid Oct) chainsaw operations may only occur Monday through Friday between 10:00 am and 5:00 pm (1:00 pm on Friday). While campground is open, no chainsaw operations between Friday at 1:00 pm to Sunday night, or on federal holidays. No chainsaw operations within 200 feet of occupied campsites.

Skidding is prohibited. Vehicles are limited to one vehicle length off the road.

Any barriers removed will need to be returned to their original location. Any damage to tables, fire rings, barriers, etc. during purchaser's operation will need to be replaced or repaired by the purchaser.

Felling operations may only be done while campground is closed. When Purchaser's felling operations are in progress adjacent to permanent roads or campsites, purchaser shall furnish, install, and maintain temporary traffic controls that provide vehicles and campers with adequate warning of potential hazardous conditions associated with Purchaser's operation. Purchaser and Forest Service shall agree to a specific Traffic Control Plan prior to commencing operation.

3 - LOAD TICKETS (07/1998)

The Purchaser shall complete and return assigned load tickets according to the Contracting Officer or designee's written instructions. Unused load tickets shall be returned to the Contracting Officer or designee at termination date.

Sale Name: Cherry Valley Fuelwood

4 - PRODUCT IDENTIFICATION (11/1999)

Before removal from the sale area, unless the Contracting Officer determines that circumstances warrant a written waiver or adjustment, (a) all products 8 feet or more in length and 1/3 or more sound shall be hammer branded on each end that is 7 inches or more in diameter and (b) all domestic processing products 8 feet or more in length and 1/3 or more sound shall be painted with a spot of highway-yellow paint on each end that is 7 inches or more in diameter. Each paint spot must be not less than 3 square inches in size.

The Contracting Officer shall assign brands and brands shall be registered with the State, if the sale area is within a State that maintains a log brand register. The Purchaser will furnish and apply highway-yellow paint of a lasting quality (oil-base or equivalent).

All hammer brands and/or highway-yellow paint must remain on logs until they are domestically processed. If the identifying marks are lost, removed, or become unreadable, they shall be replaced. The Purchaser may remanufacture products into different log lengths. Except for logs remanufactured as part of the mill in-feed process immediately before processing, remanufactured products must be re-branded with the assigned sale brand and repainted with highway-yellow paint, unless otherwise agreed to in writing by the Contracting Officer. For such remanufactured products, the Contracting Officer may approve use of a brand to be used exclusively as a catch brand, in lieu of the assigned sale brand.

7 - STREAMCOURSE PROTECTION (07/1998)

Streamcourses that are subject to these requirements are shown on the sale area map. Unless the Contracting Officer or designee agrees in writing otherwise, the Purchaser shall use the following measures to protect streamcourses: (a) Purchaser's operations shall be conducted to prevent debris from entering streamcourses; (b) Purchaser shall not otherwise haul or yard trees or products across streamcourses unless fully suspended and; (c) Purchaser shall not operate wheeled or track-laying equipment in streamcourses, except at crossings designated by the Contracting Officer or designee. In event the Purchaser's operations cause debris to enter streamcourses, the Purchaser shall remove such debris as soon as practicable, but not to exceed 48 hours, and in a manner that the Contracting Officer or designee agrees to in writing that will cause the least disturbance to streamcourses.

13# - ROAD MAINTENANCE (06/1999)

The Purchaser shall pay for road maintenance, commensurate with the Purchaser's use, in accordance with the Contract Road Maintenance Requirements Summary and Road Maintenance Specifications. Costs are included in associated charges listed on Page 1.

If the Purchaser elects to use different roads than those listed in the Contract Road Maintenance Requirements Summary, the Contracting Officer or designee shall determine the Purchaser's commensurate share of road maintenance and revise associated charges listed on Page 1.

13A# - SLASH DISPOSAL (11/2001)

Purchaser shall dispose of slash, which is limbs, tops, and unutilized portions of trees designated for cutting, resulting from their activities. Slash disposal consists of the following treatments: \_

Clean up: Any residual residue resulting from the fuelwood hazard tree operations including branches, bole wood, and adjacent broken brush that is larger than 1 inch in diameter and at least 3 feet long is considered to be logging slash.

Hand piling is required. Piles shall be 2 to 4 feet tall. Piles shall be reasonably packed, free of soil, and be located at least 8 feet from residual trees and brush. A 1-foot wide fireline to bare mineral soil is required around each pile.

Piles must be placed at least 25 feet from all streams, including ephemerals.

14A# - FIRE PRECAUTIONS (12/2005)

Purchaser and their employees shall take immediate and independent action to prevent and suppress forest fires on the Sale Area.

Purchaser shall follow all applicable state fire regulations. Listed below are specific fire precautionary measures which shall be applicable and are included or in addition to state fire regulations. Unless otherwise agreed in writing by the Contracting Officer or designee, Purchaser shall:

a) maintain effective muffler systems or approved spark arresters on exhausts of all internal combustion engines used in Purchaser's operations;

b) furnish and maintain in quantities and at locations to be determined by the Contracting Officer or designee, tool boxes, fire extinguishers and fire tools to be used only for suppressing forest fires. Contracting Officer or designee shall approve tools and fire extinguishers to be used;

c) remain on the sale area for at least 2 hours after cutting to be sure that a fire has not started.

d) conduct operations according to the Project Activity Level for that day. Purchaser shall obtain activity level information daily from the Groveland District Ranger's Office. Operations permitted by Project Activity Levels are:

Project Activity Level	A	- Cutting and hauling allowed
Project Activity Level	B	- Cutting and hauling allowed
Project Activity Level	C	- Cutting and hauling allowed
Project Activity Level	D	- Hauling allowed, no cutting after 1:00 PM (Hoot Owl)
Project Activity Level	Ev	- No cutting, hauling allowed, unless a variance is agreed upon
Project Activity Level	E	- No cutting, hauling allowed
